THE LEADER IN CHROME PLATING

U.S. Chrome of Ohio is one of five locations servicing North America. For three generations, our focus has been on the practice of engineering and applying industrial hard chrome plating.

OVER 80 YEARS OF SERVICE

As a leader in electrolytic and electroless plating, U.S. Chrome of Ohio has continuously defined quality, precision and innovation in the plating industry.

Our proprietary plating processes allow us to deliver a finished product faster and ensures a quality product every time.

Our investment in research and development has always set us apart from our competitors.

Solving Wear, Friction & Corrosion Issues For Generations

OUR SERVICES

U.S. Chrome of Ohio serves industries such as Aircraft Repair, Aerospace, Commercial, Injection Molding, Military, Manufacturing, Medical, Mining, Printing, Railroad, Tool & Die and many others.

FAA CERTIFIED
REPAIR STATION

PLATING SPECIALTIES

- Industrial Hard Chrome
- Flash Chrome
- Thin Dense Chrome
- Precision Hard Chrome
- Low Contractile Chrome
- High Efficiency Chrome
- Electroless Nickel
- Ferrous and Non-Ferrous Base Materials
- OEM and Salvage
- Chrome Alternatives

CUSTOMER APPROVALS

- General Electric
- Boeing Aircraft
- Honeywell
- Hamilton Sundstrand
- Kaman Aerospace
- Collins Aerospace
- Rolls Royce
- Department of Defence
- US Navy
- Gulfstream

PRODUCTION CAPABILITIES

- Length Capacity (Chrome) - up to 14'
- Weight Capacity (Chrome) - up to 3 tons
- Length Capacity (E-Nickel) - up to 35"
- Weight Capacity (E-Nickel) - up to 1/2 ton
- Single Part and High-Volume Production

SPECIFICATIONS AND CERTIFICATIONS

- AMS 2406
- AMS 2460
- AMS QQ-C 320
- MIL-C-23422
- FAA Repair #GW5R898M
